Bookles Have Lost Heavily to the Public.

Magnificent Son of King Eric Not Only Set New World's Record for Six Furlongs and the Mile, but Showed Ability to Go On.

(Special to The Times-Dispatch.) CHICAGO, ILL., August 22.—The sensa-tion of the week's racing at Hawthorne has been the remarkable luck of the public in their daily battle with the bookmakers. Since the change of racing from Harlem to Hawthorne, race-goers have been beating the books so unmercifully

The large attendance at Hawthorne on the opening day were very agreeably dis-appointed when the newly appointed spechal constable, Lange, did not swoop down upon them with ms army of hoodhuns, arresting everybody in sight, making the placing of a bet among the impossibili-ties. The air was full of rumors, but the

placing of a bet among the impossionities. The air was full of rumors, but the self-made lawmaker did not appear, and as day after day has pased, and the blast of his bugle has not been heard, the wise have come to the conclusion that Constable Lange has enough to hold him awhile.

E. E. Farley, the "ringer," was to have been taken to Detroit on Thursday of this week to answer the charge of securing \$50,000 under false pretenses, and for which the penalty in the State of Michigan is a long term of imprisonment in the penilentiary, was neld by the authorities as a witness in Chicago, as a witness in the coming trial of the people against the bookmikers and proprietors of various race tracks in the vicinity of Chicago, alleging gambling on the tracks, and which Farley was mainly instrumental in bringing about.

disgraced and ruled-off owners from venting their spite on the tracks on account of their just punishment.

What was thought would lead to a sensational exposures in racing circles at the Chicago tracks has simmered down to have been nothing more than a war of words between Ed Corrigan and Starter Holtman, about the exact placing of the six furlong post at 1 fawthorne race track. Corrigan was not satisfied that the position of the post gave the horse on the inside and the one on the outside an equal chance at the start. He so notified Mr. Fitzgerald, president of the Hawthorne Jockey Club, and Fitgerald told Corrigan to move it.
Holtman became angry at what he designated Corrigan's interference with his work, and they had a very noisy argument, until finally Holdman became so excited that he tendered his resignation, which was not accepted. A surveyor was called lipon to determine the exact position of the barrier, and both parties remain of the firm ordaion that they were correct in the way they wanted it. They allowed the surveyor two

Holiman is still starting, and in all probability will continue to do so for all ground and the starting and in all probability will continue to do so for an indefinite period.

letter received from Los Angeles A letter received from Los Angeles states that the new race track being constructed at that place is about completed, and the opening season is expected to be a brilliant one, and is anxiously looked forward to by all lovers of sport not only in California, but throughout the country, as California is everybody's home during the winter months, when the racing season will be at its height.

# WHO IS KING

Racing Public Demands an Answer to Question.

Talk of a Special Sweep Stakes of \$125,000-McChesney, Waterboy, Irish Lad. Hermis and Africander-New Pacing Mark.

By MANHATTAN

NEW YORK, August 22 .- Will the question of the best race horse on the Amerlean turf be settled this season by an actual race between those who may fairly be considered contestants for the title at weight for age? This is the question

makers. Since the change of racing from Harlem to Hawthorne, race-goors have been beating the books so unmercifully that thirty-odd book-makers are losers to the tune of \$300,000. In fact, their losings have become so regular that the majority of the smaller book-makers are on the anxious seat, and their only chance of anxious seat, and their only chance of change of luck. Should this not come there will be a notable thinning out in the number of men handling the public's money at the track.

The feature event of the week has been in the marvelous work of Dick Welles, and he has proven beyond a doubt that he is the champion of the West, if not the entire country.

The magnificent son of King Eric has not alone set a world's record for six furlongs and the mile, but he has shown for alone set a world's record for six furlongs and the mile, but he has shown and an eighth he is the same fearless champion that he is at shorter distances, and his noble sire, King Eric has not alone set a world's record for six furlongs and the mile, but he has shown for alone set a world's record for six furlongs and the mile, but he has shown for alone set a world's record for six furlongs and the mile, but he has shown for alone set a world's record for six furlongs and the mile, but he has shown as the control of the week has been in the world, now that the is the catenature of the world with his and an eighth he is the same fearless a seasoned four-year-old.

A match that would no doubt draw one of the largest crowds that ever witnessed in raining in America is a possibility between all and look with the same and Mcchements before he becomes a seasoned four-year-old.

A match that would no doubt draw one of the largest crowds that ever witnessed in raining in America is a possibility between all and look with the same and Mcchements before he becomes a seasoned four-year-old.

A match that would no doubt draw one of the largest crowds that ever witnessed in a conditions of the race to be that the purse as big, if not bigger, tha

anything ever raced for on the American turf.

If a special for these five horses should be arranged on one of the metropolitan tracks it would draw such a crowd as never before seen at a race track in the United States, and the betting would go into seven figures.

It seems certain that unless drawn together by a special purse the question of supremncy will have to be settled by word of mouth instead of over the track. Every one of these horses is now as fit as ever he will be. Hermis, Irish Lad, Waterboy, and Africander have shown their fitness in races, while it is said Mc-Chesney has fully recovered from his lameness.

It is to be hoped they will get to-

It is to be hoped they will get to-gether.

Dan Patch has clipped another frac-tion off the pacing record, and it now stands at 1:50 flat. He did it in such style that McHenry, his driver, is confi-dent that the great son of Joe Patchen can go the mile in two, if not three, seconds faster, and may do it before the pad of the season. In the last half cenend of the season. In the last half cen-tury the pacing record has been clipped 2014 seconds. From Pet's 2:1914 to Dan

Lou Dillon was not so fortunate in trying to lower Cresceus' figures. She made a superb effort, but conditions were against her, and she could not come within more than a second of the record. From her performance, however, it is not unlikely that the trotting figures, as well as those for pacing, will be fixed at a new mark before the season is out.

and which Farley was mainly instrumental in bringing about.

It was decided not to grant the requisition of the Governor of Mithigal for the person of Farley until after this trial, which, it is understood, will be begun at once.

The recent disturbances brought about by Farley and other unscrupulous persons who have been harassing the various managements around Chicago have shown the necessity for a racing bill in Illinois, the same as there is in New York, Missouri, California and other Western States. Such a law would prevent disgraced and ruled-off owners from venting their spite on the tracks on azcount of their just punishment. two forces the Jamaica people would stand to get the worst of it, and they know it. Bo it is a pretty safe proposi-tion to say that there will be no friction between the track and the Jockey Club this season, at all events.

The courts have decided the controversy The courts have decided the controversy over the control of the little negro Jockey, Wallace Hicks, and he will continue to ride for Perry Belmont, under the management of Antoine Plicque, who brought him from New Orleans. The action for control of the boy was nominally in the name of his father, but it is believed Hattfield, who formerly controlled the boy, was back of the action. One of the funny things developed by the proceedings was the fact that Hicks is now possessed of a valet, who is as black as the little jockey and about three times as big. The valet was the most excited man in Saratoga when the court proceedings began.

George Odom does not want to ride for the Thomas and Shields stable under his present contract, but, as the stewards have decided that his contract is valid and binding, he will have to do it, unless and binding, he will have to do it, unless the stewards are overruled. Captain S. S. Grown, who has first call on Odom's services, has become interested in the matter, and will bring it before the Jockey Club. There is friction between the little Georgian and Mr. Thomas, and, besides, Odom holds that he should not be expected to ride for the combined stable for the same money he got from Shields

News has reached here that Jockey F. McGinn, who went to France to ride this season, is coming back to America. He does not like the Frenchmen and the climate disagrees with him. He has been fairly successful, but believes he can do better on the American track. He is accounted a good jockey, and will he welcomed.

James R. Keene brought five mares with feals and a yearling from the other side this week, and they have been sent to his breeding farm, at Lexington, Ky, Two of the mares were purchased at the sale of Colonel Harry McCalmont. The others, Nautch Girl, Sunlight and Lady Inversauld, were shipped abroad by Mr. Keene about two years ago.

Mayor Grainger has taken an active interest in racing during the past year or so, and is doing much for the benefit of the sport in Kentucky. Last year he was elected president of the Jockey Slub, and logether with Charles F. Price, the general manager, conducted a successful meeting last spring. medal is shot is, it has to be won three consecutive times in order for the winner to own it. It has been traveling at a rapid gait since the first contest, having been won by the following shocters: Anderson, Dr. Hillsman, H. Brown, H. C. Boudar, and last won by P. J. Filppen, who put up a beautiful race. In the first fifty targets, Anderson, L. C. Smith and Filppen were tied on forty-six each, Anderson and L. C. Smith each making a run of thirty-two targets, either of whom it was thought would win out, but each dropped their last two birds.

RACE OF HIS LIFE.

Filppen remarked confidently to one of his friends, he would win out or "Mollie Stark's a widow." This was really the prettiest and hardest race of his life, and he purposely saved all his nerve and energy for this particular event. No one dreamed that he could stand the great ordeal, but as he centered target after target, and the scorer called up the "puverlead mud pies." It seemed to give him renewed energy, and he continued to call to the puller for hirds, until he smashed out twenty-four to his credit, amid applause and hearty congratulation. L. C. Smith was keeping close company by only dropping two birds in the last twenty-five, while Anderson was practically out of the race after his eighteenth bird.

In the shoot off of the tie, Martin won out. Martin shot well through the entire programme, breaking ninety-one out of one hundred. The regular shoot, none but Northside eligible to contest, Martin won the Peters trophy, while Mr. J. W. Brower captured the Robin Hood medal.

There was an extra, not scheduled, a live bird race, between Mr. Martin and Mr. S. McLelland, each killing their ten birds straight. The retrieving was done by a handsome English setter, the property of Mr. Martin.

SHOOT AT BLACKSTONE.

There will be a large delegation of shooters to the Blackstone tournament next Wednesday. The president of the club has secured J. A. Anderson to manage the shoot. It is safe to say, 'twill be a success.

For the number of shooters, the representation at yesterday's shoot was the largest ever known.

The following clubs were represented: Mr. T. H. Fox, Ashland Club; Mr. Chalkley, Ft. Smith Gun Club, Ark; Mr. R. H. Johnson, West End. A number of shooters representing Deep Run, Northside, East End and Richmond Club.

The many friends of Mr. Colquitt were glad to see him face the traps. This was his debut for the season, but he demonstrated that he had not forgotten how to smash them. At one time Mr. Colquitheld the champlonship of Richmond, and it seems as though he has lost 'none of his cunning.'

For the first time in many years all the union barber shops in St. Paul will be closed on Labor Day. The barbers will be conspicuous in the parade.

Regular Weekly Shoot of this Organization Was Held Yesterday. The regular weekly shoot of the Albe-

New Reservoir. Twenty-five shoeters took part in the sport, taking twenty-five shots each. Those who took shots were not in their usual form, but all made a very creditable showing.

Mr. John Thomas was high gun, breaking twenty pigeons out of twenty-five, Mr. Henry Farmer came next with twenty, while Messrs. R. Glasgow. Culton, Boschen, Landrum, nalled nineteen each. A very handsome gold medal, costing \$55, will be purchased by the club as a prize to the person breaking the largest number of pigeons. This club is composed of
